MEMORIES

PUB

This is **your** yearbook. It is a record of **treasured memories**. It is a priceless keepsake that cannot be replaced. It will last a lifetime if treated with care. Handle it as you would any other new book. **Open** it first down the center and press gently with the palm of your hands. Then begin to open it to other places following the same procedure, until you have opened every page, from cover to cover. This will avoid undue strain on the binding.

**Do not** store your book close to extreme heat, such as a radiator or heat duct. **Do not** leave it lying in the hot sun; it is fresh off the press and must have time to cure thoroughly before it is handled too much. **Avoid** getting it wet. Paper will soak up water.

Any abuse will damage your book. Careful observance of these instructions will help to make your book a lasting record of happy memories. Good luck!

# IN MEMORIAM

Malcolm Eidson

Through these halls, and on this earth  
Where the sun and moon have shone;  
Walked the soul of one good friend  
Whom all in joy have known.

Stars have been found in heaven  
Since time has begun;  
The one we love has been added  
To sing the praises of The Almighty One.

When the winds blow, thoughts are brought  
Of the voice that echoes here  
And is heard by all who love him dear.

No one shall ever be able to fill  
The great ache of the souls  
Of those young and old, who have encircled  
His memory with thoughts of gold.

Even though he has passed away,  
His memory lingers every day;  
His hope and faith even through tomorrow  
Will be with us until . . . . .

Seniors: You are rapidly approaching graduation and commencement of adult life. Graduation does not mean your education has been completed. Whatever your pursuits after high school, the demand for more and better education will always be present. You have been given the fundamental tools to meet this demand. Unlike mechanical tools, these you possess grow sharper, more efficient, and more useful with constant use. Your success in life will be commensurate with the degree to which you use these tools constantly with purpose and determination. Success is not measured in dollars and cents, but by your contribution to the betterment of all mankind.

We entered school in September, 1950, at Hurdle Mills, Mt. Tirzah, and Helena, a scared bunch of kids. Mrs. Dickerson, Miss Nannie Monk, and Mrs. Vera Fox were our first grade teachers. At Mt. Tirzah, the boys and girls were already fighting. It seemed that the girls had a playhouse and the boys were continually tearing it down. Nevertheless, we were very busy learning how to count and to say our ABC's. Billy Berry also learned that he could get a knot on his head from Mrs. Dickerson's pencil if he wasn't quiet.

In the second grade, under Miss Pearce, Miss Monk, Mrs. Daniel, and Miss Whitfield, we learned our first spelling words and arithmetic. At Hurdle Mills, we started a singing class. All of us especially enjoyed our Easter egg hunts this year.

It seems our third year was really wild at Helena and Hurdle Mills. At Helena, the girls chased the boys with long briars and lost their recess for a while, and at Hurdle Mills the pupils were exposed to a new type of punishment--lying across a chair. It served the purpose, didn't it, Brenda and Emma Jean? Our teachers this year, Mrs. O'Briant, Mrs. Satterfield, and Mrs. Montague, were surely happy to promote us.

Mrs. Jones, Mrs. Lowery, Miss Rogers, and Mrs. Howard were our fourth grade teachers. This year we started to study geography, which we learned to dread. We learned many Bible verses and had spelling matches throughout the year. We enjoyed our first picnics and weiner roasts this year.

Under the guidance of Mrs. Howard, Mrs. Lowery, and Mrs. Jones in the fifth grade, we learned the forty-eight states in the United States and their capitals. Many of us learned to write "I must not talk in class" very well, also. At Hurdle Mills, we had class parties every Friday, while at Helena, we thought we were "big shots" because we were allowed to visit the capitol building and museum in Raleigh. At all three schools we enjoyed giving a science fair.

In the sixth grade, under Mrs. Hicks, Mrs. Bryant, Mrs. Clay, and Mrs. Lowery, we learned that each year brings with it harder work. Hurdle Mills enjoyed a trip to the Ice Capades in Raleigh this year. It really was fun, wasn't it, Iris and Jerry M.? At Helena some of us (like Stella, Marie, Barry, and Newell) took dancing lessons to get out of classes. The Mt. Tirzah boys and girls finally made up and started working together in the Garden Club growing flowers.

This year, in the seventh grade, the boys and girls began to notice each other a little more, and the girls started wearing makeup to promote this interest. We welcomed trips to Chapel Hill and Durham for "educational" benefits, and all of us enjoyed our class parties. We waitresses at the Eighth Grade Banquets really had good times, didn't we? Our teachers were Mrs. Bryant, Mr. Street, and Mrs. Clay.

When we reached the eighth grade, we really thought we were "King Bees." Many of us played in Midget sports, which took lots of time. With the help of Mrs. Hicks, Mr. Warren, and Mr. Dunn, we prepared for our Eighth Grade Banquets. All that work was worth it, wasn't it, Newell? This year the three schools had a weiner roast at Westwood Park together to get acquainted, and some became very close. How about it, Emma Jean? Each of us happily accepted our promotion certificates and eagerly awaited that glorious day when we would enter high school.

Then came the day we had looked forward to for so long, our entrance into high school. With the help of our homeroom teachers, Mrs. Titus and Mrs. Welch, we became accustomed to high school procedures. We had a Christmas party, F.F.A. initiation, and F.H.A. initiation. We were all delighted to be able to attend the State Fair together this year. In spite of the bus trouble at Stovall, we all had a wonderful time at the F.H.A. rally.

In the tenth grade, we had gotten used to high school and with homeroom teachers, Mrs. Brooks and Mr. Hicks, we began to like it. As sophomores we were eligible to take part in F.F.A. and F.H.A. initiations of boys and girls in the ninth grade, which we enjoyed thoroughly. Many of us were asked to join the Beta Club, which made us very happy.

# HISTORY

As we continued to climb the ladder to our goal, graduation, we found ourselves juniors, and almost at the tops of our ladders. We eagerly awaited that happy day when our class rings would arrive, and after their arrival, we showed them off for weeks without end.

With the aid of Mrs. Foushee and Mr. Hodge, we planned and carried out our Junior-Senior Banquet, selling magazines in order to finance it. Emma Jean was high salesman of the magazines, winning a beautiful clock radio, which everyone envied.

Everyone worked madly the night before the banquet making preparations, both on the gym and on his personal self. Girls came to school with their hair in curlers on the day of the banquet, signifying they wanted to look their best on this big occasion, and everyone did. Some will remember the next morning for a long time, also, won't they, Sherrill?

With many years of school hardships and good times behind us, we are now Seniors, with Miss Ruth Lunsford as our sponsor. We are all happily looking forward to graduation, but deep in our hearts we are also sad knowing that we shall leave our friends--perhaps never to see them again. As of now, we are working on the HORNET, which we are hoping to be the best annual published yet. More than anything else, we are looking forward to receiving our diplomas in the spring. Some of us will go to work, and others will get married; yet none of us will ever forget the wonderful years we spent at Helena, Mt. Tirzah, and Hurdle Mills.

Signed, witnessed, and sealed this fourteenth day of November, in the year of one thousand nine hundred and sixty-one.

Valinda Garrett

Now come with me to the wishing well,  
Let's see what the future will foretell,  
For down in the water I've been told,  
You'll find fame or fortune or a pot of gold.

One name at a time draw up from below,  
Let's see what each senior wishes to know,  
For the well will prove true for they all made their wishes,  
But what it shall be? Ye gods and little fishes!

As the first name appears I see that VALINDA GARRETT and her husband, J. T., are owners of their own motion picture industry, "Swamp Fox Studios". They don't have to hire professional actors and actresses with the help of the fifteen little "Tucks".

Well! What a pleasant surprise. LINDA FOX now lives in India where she has finally met that certain tall, handsome someone for whom she has always been looking. Her nursing career is now paying off since she has so many little "interns" to take care of.

I can see that DOUGLAS HICKS now has a large grasshopper ranch in Texas where he raises grasshoppers to sell to the local restaurants.

And now I see that FRANCES HUFF and D. C. finally got "hitched". You should see all those little Claytons following "Mama" to milk every morning.

Wait! This doesn't seem to be so clear. Ah, I see it now. LINDA ASHLEY is now a co-owner of an amusement park with B. H. as her partner. Their specialty is bowling.

As I look again I see that HILDA DEAN is married to N. A. and they surely have the little "Allens". They have a pretty hard time keeping them out of meanness, and they're about to run Hilda crazy. Carry on, Hilda!

There is a switch in the Hill household. Joan Hill, once JOAN WHITFIELD, is working hard trying to make a living for her husband, M. H., and their four children.

Look at this! ELAINE TERRY has given up her dream of a nursing career and has settled for a home in Longhurst with C. H. She is kept busy with six children following her around.

I now see THOMAS SMITH. He has started preaching since he lost his liquor store. He drank up all his profit.

NINEZ GRAY is determined to get rich the hard way. She is out "panning" for gold in the hills of California.

Boy, has LOIS PENNINGTON, once a love sick steady, shocked everyone! Now she is working in the West with the Sports' Car Racing Industry. Wonder where A. H. is???

What's this I hear? Is it babies crying? It surely is and it's coming from JOYCE CLAYTON'S day nursery. After Joyce and L. D.'s marriage, the nursery came in pretty handy.

Look at this! GEORGE McCORMICK and V. K. D. have established a race car business. George makes the cars and Vivian drives them.

BARRY SAUNDERS has settled down and now has his own football team. Of course, he is a very busy man while caring for all those broken fingers and legs.

Guess who married a millionaire doctor. Yes, it was none other than NANCY FOX. She spends her time in their mansion counting hundred dollar bills and children.

I see that MARY ALICE HUMPHRIES has become business manager for Dick Clark on American Bandstand. She stays pretty busy trying to keep house at the same time.

RICKIE DUNCAN finally got a Go-Kart that will go 120 M.P.H., but he is wearing out his shoes sliding them on the ground for brakes.

I hear a radio. BILLY BERRY is talking. He was doing missionary work in Russia but he is home now on a furlough.

Look at this. ALICE TERRY is still chauffeuring that '58 Chevy around. Arthur has lost his license again, and you see them together anytime, her driving, and him directing her.

LINDA HARRIS didn't fool anyone. She is now the wife of a certain boy at State.

Well, BENNIE LUNSFORD, JR. has finally found a car that will turn 110 in a quarter of a mile. He had to install seat belts though so J. C. could stay in.

It looks as if RALPH BASS has broken several girls' hearts. I see that two of them were "Hoochie Koochie" girls at the State Fair.

Uh! huh! KATHLEEN OAKLEY is now serving as private secretary for Fabian in Philadelphia. Wonder what happened to that certain someone in Person County??

As I look into SHERRILL WALKER and GLEN DUNCANS' future, I see that they are now married. Sherrill has taken Elizabeth Taylors' place in Hollywood and Glen is organizing Teen-Age Safety Clubs. Both of them have still another job, rearing five little "Duncans".

Well, what's this! DORINE HARRIS is now married to Larry Thornburg and there are twelve little "T-Birds" running up and down the road drag-racing.

MARIE HOWARD has finally settled down to a quiet life in suburban Outer Mongolia. She and her husband J. C., M.D., are conducting a study on the life habits of the tsetse fly. This has been J. C.'s dream project, but Marie had her heart set on inventing glasses for near-sighted monkeys.

Why, I see that CHESLEY RIMMER is now in New York where he runs the biggest bookie organization in the world.

As I look again I see that MARY JANE DAY is now manager and owner of Bruces' 5¢ and 10¢ Store. I wonder what happened to??

Next I see that RUSSELL HORTON and J. K. have a successful business started on the moon.

I see now that JERRY DAVIS has married S. L. and is living a happy life with their three kids. He is working as a street cleaner.

As CHARLOTTE ELLIOTT'S name comes to the top, I see that now she is a registered nurse and married to a former Granville County Highway patrolman. They and their four children just recently moved to Nashville, Tennessee.

I see that NEWELL DAY is living on a farm and raising Bird Dogs. He finally married L. H. and she is helping him.

What's this? NANCY EAKES is running around trying to lose weight. She weighs 220 and she used to weigh only 86. Boy, Howard is surely feeding her well.

It seems as if B. W. D. finally trapped KATHLEEN MOORE and they have quite a few little "Days" to take care of. Wonder how she decided among B. W. D., L. H., and D. D.

BRENDA BURCH has finally become a successful actress. It seems that her two leading actors are J. C. and M. S.

You all remember HELEN ELLIS? She has become the second Minnie Pearl at the Grand Ole Opera. Before that, she married Grandpa Jones.

MINNIE ROSE DUNCAN is still going to the dances kicking up her heels. She leaves her twelve little "rose buds" at home with her husband, W. C.

As I look in the well again, I see that GERALDINE DAY has at last given up all her "stolen fellows" and has settled down to one. I hear that she and her "mystery" fellow now have several little "mysteries".

PAT JONES surprised everyone, especially R. C., by moving to Cape Canaveral, Florida, where she is a member of the astronaut team. Lots of luck on the moon, Pat!

JERRY CATES and CHARLES HICKS now own the largest liquor steel in the South. It is in a fall out shelter at Pig Root Canyon. Jerry has his wife, C. W., helping them. JERRY MOORE is hauling the liquor on his "red" '51 Studebaker.

I see that STELLA BARTON has been having a lot of trouble with her car, so she decided to settle her problem by marrying her chief mechanic, C. L. O. Stella and C. L. have taken over Oakleys' Machine Shop. When you ride by, you can look in the doorway and see Stella in the latest style welding mask.

I see that EMMA JEAN DICKEY finally decided to make her home permanently with a certain "Clayton" boy from Roxboro.

BETTY LOU McCULLOUGH is now married to E. B. and they are living in Prospect Hill. Betty Lou is seen every morning hanging out baby diapers for her two sets of twins.

As the last prophecy comes to the top, I see IRIS TUCK running her girls around the gym. She is head coach for the girls' basketball team at Helena. She just couldn't leave Helena and basketball.

## OUR COACH

Mr. Dave Hodge

In addition to a full time teaching schedule, Mr. Hodge coaches football, girls' and boys' basketball, and baseball. He spends much of his time and effort working with our high school athletes. He has influenced each and every one of his players, and he always finds time to help with any kind of problem.

We pay tribute to Mr. Hodge for the fine work that he has done for the athletic program at our school.
